UKIYO AI

• UKIYO AI — DIGITAL GROWTH SERVICES

Dominate Google. Own AI Search.

While your competitors fight for Google rankings, a new search revolution is happening. Clients are asking ChatGPT, Perplexity, and Google AI who to hire — and most businesses don't show up. We change that.

40%
OF SEARCHES NOW GO TO AI TOOLS

3x
MORE LEADS FROM SEO + GEO COMBINED

Dubai
FOCUSED — UAE MARKET SPECIALISTS

⚡ THE SEARCH SHIFT

Search has split in two. **Google still matters** — but your clients are now also asking ChatGPT, Perplexity, and Google AI Overview for recommendations. If you're only doing traditional SEO, you're **invisible to half your potential clients.** The businesses that win in 2025–2026 will dominate both.

— WHY UKIYO AI

Dubai-Specialist

We know the Dubai market, its search behavior, and what it takes to rank locally in a highly competitive landscape.

AI-First Approach

GEO is our core expertise. We are one of the few agencies in the region specializing in AI search visibility.

Full Transparency

Monthly reports showing your exact rankings on Google, your citations in AI tools, and your ROI — no fluff.

Fast Execution

Onboarding in 48 hours. First results visible within 30 days. No 6-month waiting periods to see impact.

No Lock-In Contracts

Month-to-month flexible retainers. We earn your business every month through results — not binding contracts.

Multi-Language SEO

English and Arabic SEO — reach both international clients and the large Arabic-speaking audience in Dubai.

— HOW IT WORKS

01 — Free Audit

We analyze your current Google + AI visibility and show you exactly what's missing.

02 — Custom Strategy

We build a tailored SEO + GEO plan specific to your industry and Dubai location.

03 — Execution

Our team implements everything — technical, content, AI optimization — end to end.

04 — Grow & Report

Track rankings, leads, and AI mentions monthly. Scale what works.

Ready to be found on Google and AI — before your competitors?

— FULL SEO CAPABILITIES

13 Specialized SEO Services

UKIYO AI

01

Full Website Audit

Site-wide SEO health check — on-page, technical, backlinks, and content gaps — delivered as a prioritized action plan.

02

Deep Single-Page Analysis

Granular inspection of any URL — title, meta, heading hierarchy, keyword density, Core Web Vitals, and structured data.

03

Sitemap Analysis

Parses your XML sitemap to surface missing pages, blocked URLs, orphaned content, and crawl budget waste.

04

Sitemap Generation

Production-ready XML sitemaps from industry-specific templates — SaaS, eCommerce, local, or publisher architectures.

05

Schema.org Markup

Validates existing structured data against Google's rich-result requirements and generates Schema.org markup for all entity types.

06

Image SEO Optimization

Audits all images for missing alt text, oversized files, wrong formats, and lazy-load issues — improving rankings and speed.

07

Technical SEO Audit

Nine-category deep-dive: crawlability, indexation, speed, mobile, HTTPS, canonicals, redirects, structured data, JS rendering.

08

Content Quality & E-E-A-T

Evaluates content against Google's Experience, Expertise, Authoritativeness, and Trustworthiness framework.

• CORE SERVICE

09

Generative Engine Optimization

Optimizes your brand for Google AI Overviews, ChatGPT, and Perplexity — making you the cited answer.

10

Strategic SEO Planning

90-day to 12-month roadmaps for SaaS, local, eCommerce, or publishing — keyword architecture and link-building included.

11

Programmatic SEO

Scale rankings through templated page generation — location pages, comparisons, and product variants for long-tail queries.

12

Competitor Comparison Pages

High-converting "vs" pages targeting bottom-of-funnel intent by analyzing competitor positioning and differentiation.

13

Hreflang & International SEO

Audits and generates hreflang tags for multi-language sites — detecting mismatches and incorrect locale codes.
